BOUNDLESS EXCELLENCE MEETS SUSTAINABLE LUXURY

BHS Aviation Group

A white private jet is shown from a front-facing perspective on a runway. The aircraft has two engines mounted on the wings. In the background, there are large, rugged mountains covered in snow under a blue sky with scattered white clouds. A thin white vertical line is on the left side of the image, with a small red plus sign at the top. A small red square with a white plus sign is located on the right side of the aircraft's fuselage.

BHS AVIATION

TAKING BUSINESS AVIATION TO NEW HEIGHTS

Since its founding over 30 years ago, BHS Aviation has dedicated itself to the craft of bespoke flight experience, constantly pushing the boundaries of excellence, freedom, and individual needs.

With hub locations in Bamberg and Zurich, we are optimally located to serve local and international customers with our state-of-the-art fleet and experienced crews.

Our service portfolio includes a wide range of services, from professional flight planning and organization to comprehensive aircraft management. We care for all aspects of your trip, including providing experienced commercial pilots, crew members, maintenance, insurance, and optional chartering.

At BHS Aviation, sustainability is more than just a buzzword – it's an integral part of how we operate. We combine innovative technologies with sustainability initiatives to help shape the future of business aviation.

We invite you to discover the BHS Aviation world and how we can turn your travel need into an unforgettable experience. Let us take you above the clouds.

BHS Aviation – Our journey from helicopter service to full-service aviation company

BHS Aviation GmbH was founded in 2008 as BHS Helicopter-service in Bamberg, initially as a company specializing in business helicopter flights. In the past eleven years, we have provided intra-company transport for the 14 German branches of

the international automotive supplier Brose – all with two Airbus EC135P2+ and one Leonardo AW109SP helicopter.

BHS Aviation AG, based in Zurich, was founded in 1991 under Heli-Link/Jet-Link AG. After being taken over by a Stuttgart-based aviation company, it was renamed DC Aviation Switzerland AG.

At the beginning of 2019, Bamberg-based BHS Helicopter-service GmbH initiated the purchase of the helicopter business of its Stuttgart cooperation partner and thus took over DC Aviation Switzerland AG.

In October 2020, BHS Aviation GmbH Bamberg received an operating license as an aviation company from the German Federal Aviation Authority. The Air Operator Certificate (AOC) is the prerequisite for transporting passengers, mail, or freight in commercial air transport with helicopters. Since 2020, we have held an operating license in Germany for CAMO (Continuing Airworthiness Management Organization) to provide helicopter maintenance services.

Since 2023, BHS Aviation has had a Swiss AOC for fixed-wing aviation. This is the basis for the optional commercial marketing of private jets in aircraft management. The BHS Aviation fleet currently consists of two helicopters and one jet.

Discover truly effortless travel with our first-class services.

WHERE CUSTOMER ALWAYS COME FIRST

BHS AVIATION

For BHS Aviation, customer-centricity starts by putting your needs and wishes at the core of everything we do.

THE CONVENIENCE THAT IS READY FOR TAKE-OFF

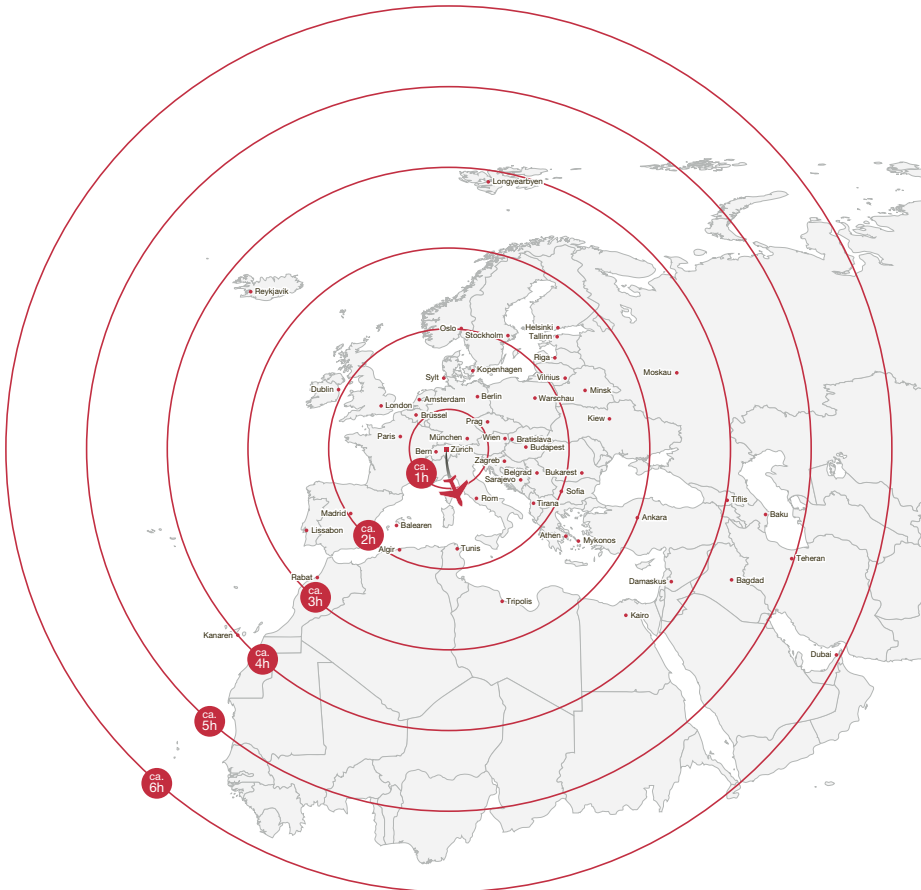

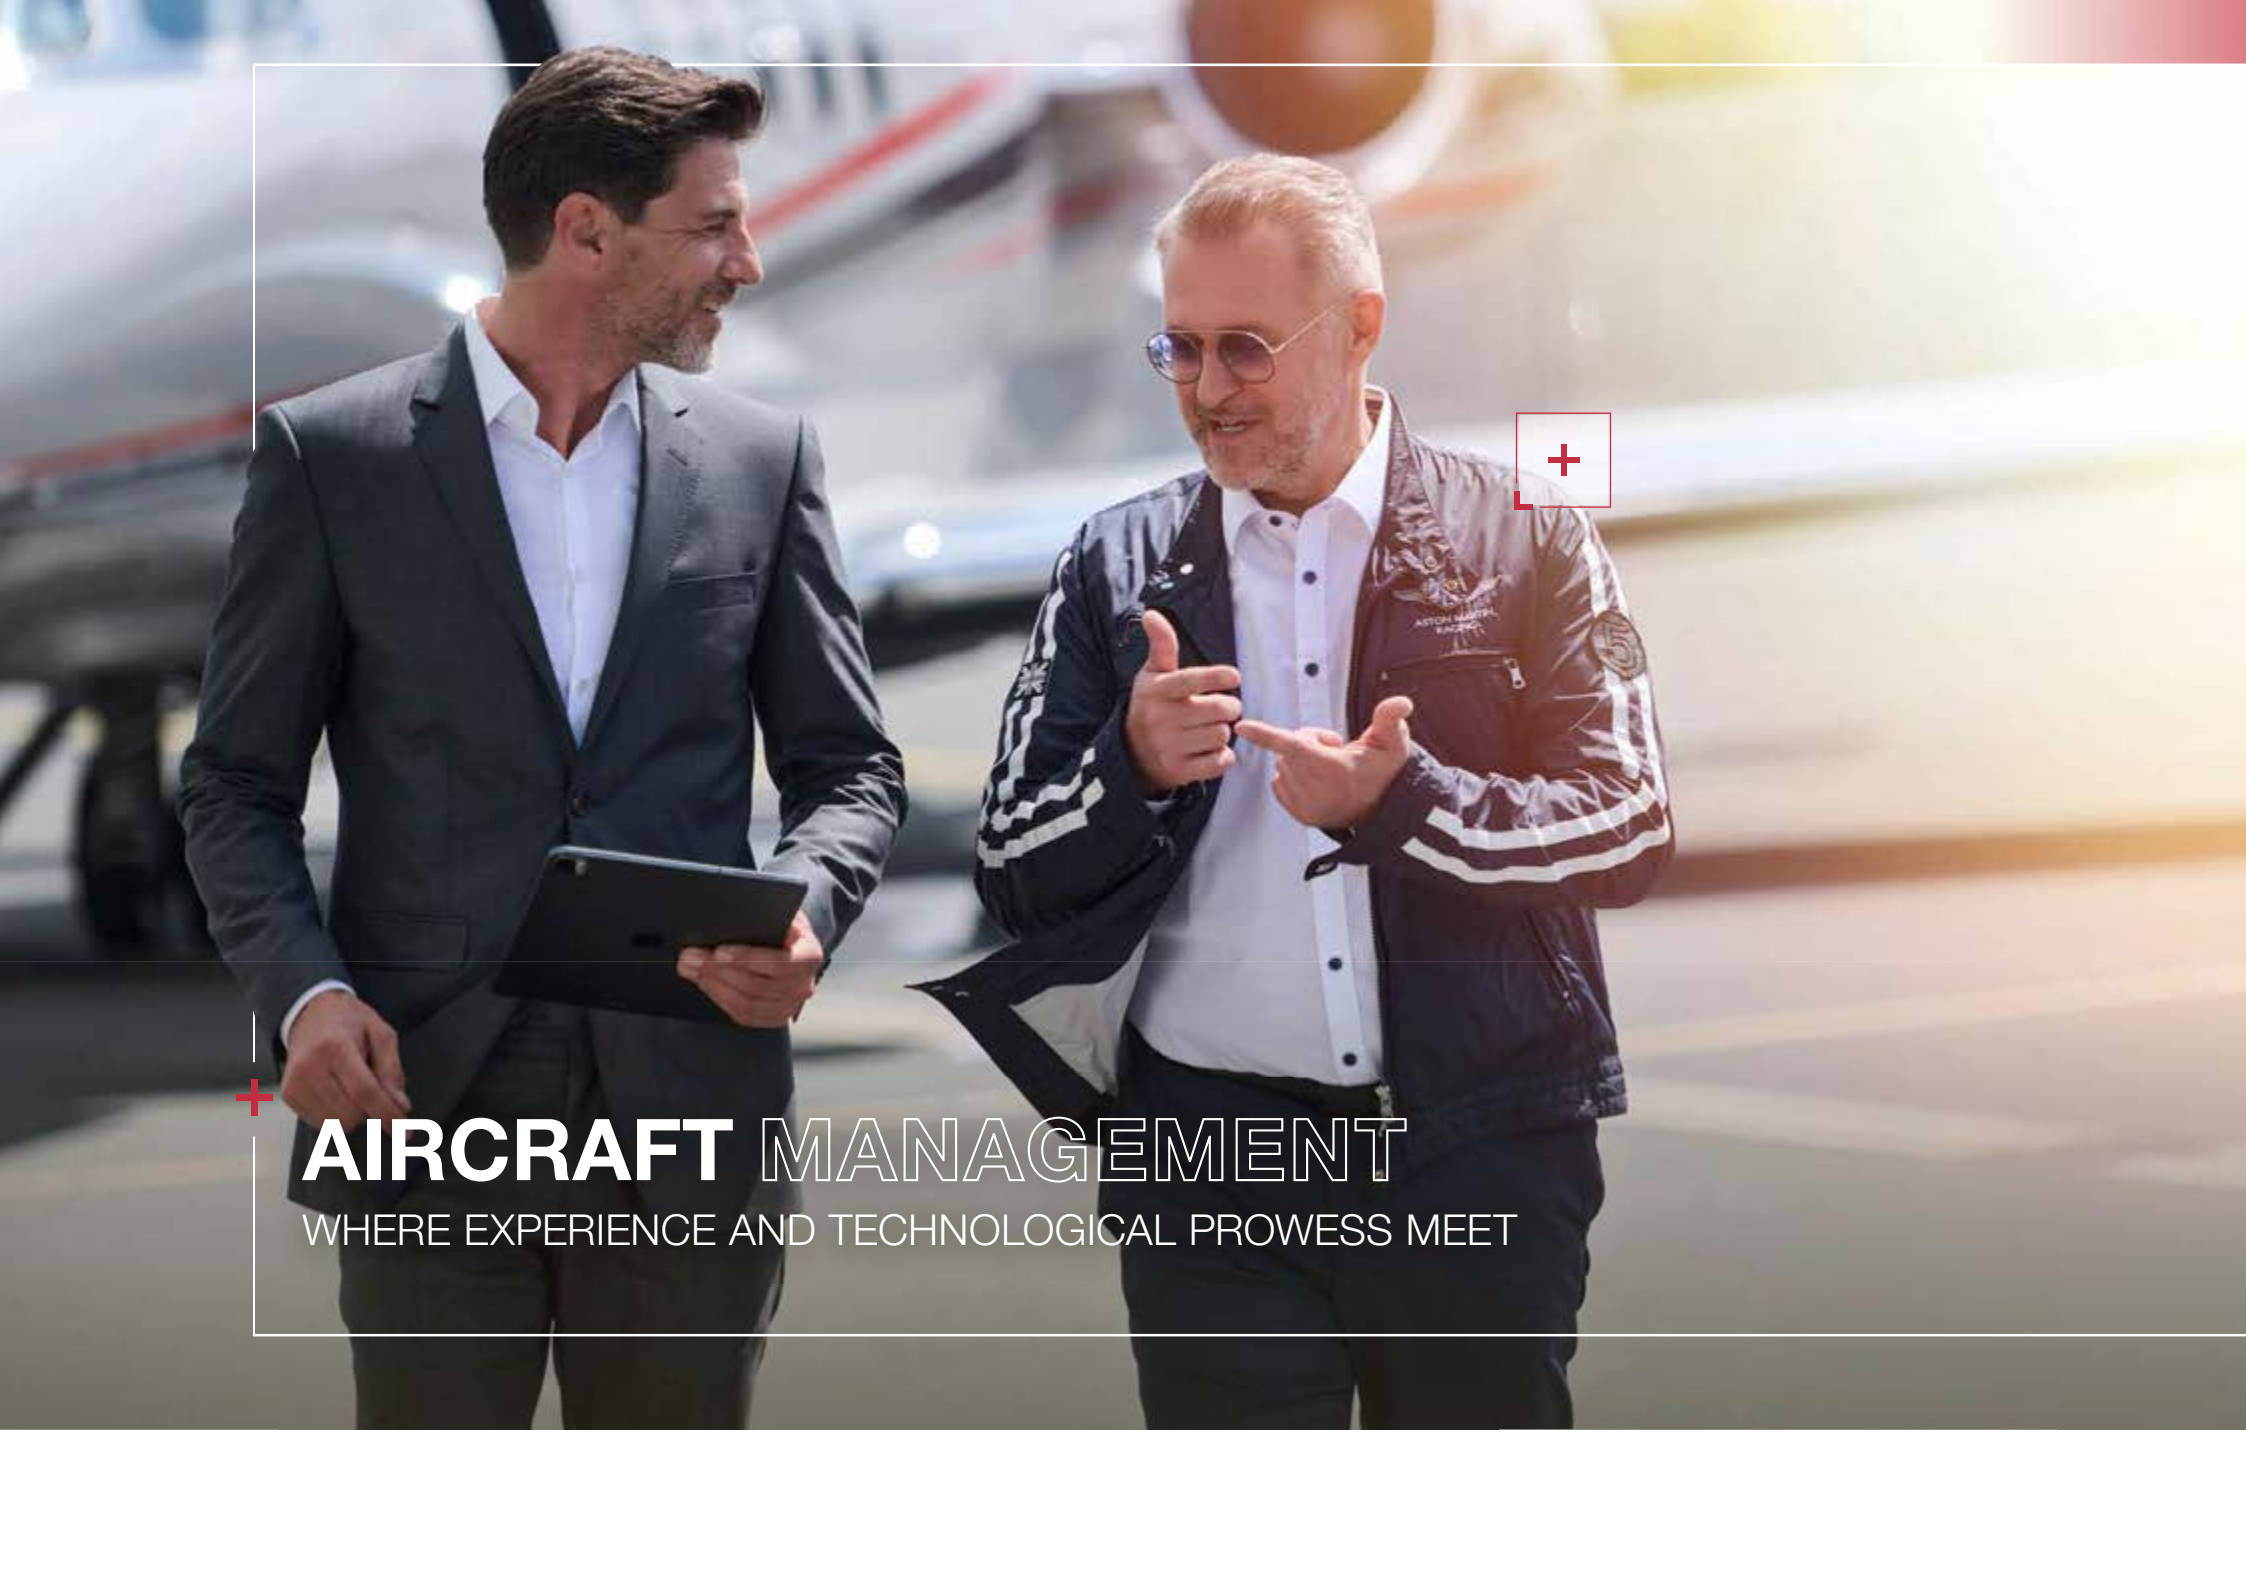

At BHS Aviation, we offer luxury jet charter services that allow unlimited freedom when traveling from A to B.

Our many years of experience in business aviation and our commitment to excellence ensure an exceptional flight experience that matches even the highest expectations.

Our jet charter services provide comfort, privacy, and efficiency. We offer bespoke flight schedules and itineraries tailored to your needs. Our jet features first-class equipment and the latest avionics to ensure the highest levels of safety and travel comfort for you. Experienced pilots and crew members will do everything to make your flight comfortable and enjoyable.

With the charter services of BHS Aviation for helicopters and jets, you will experience the ultimate freedom when it comes to business travel. Discover a world where your needs and expectations are met and exceeded.

AIRCRAFT MANAGEMENT

WHERE EXPERIENCE AND TECHNOLOGICAL PROWESS MEET

BHS Aviation offers comprehensive and professional aircraft management services that allow you to take full advantage of your aircraft ownership without worrying about challenges and responsibilities.

Our team of experts is equipped with countless years of experience and extensive up-to-date knowledge in the aviation industry to offer you a first class service so your investment is managed and protected.

Using our BHS Aviation aircraft management services, you can rest assured that your property is in good hands. We take care of all aspects of your aircraft ownership so you can focus on what matters most: flying. Let us help you get the most out of your aircraft and ensure an effortless flight experience.

Our aircraft management includes a variety of services tailored to your individual needs:

Flight planning and organization

We ensure efficient flight planning and operations that considers your specific requirements and offers optimized routes saving time and money.

Experienced commercial pilots and crew members

We suggest that if possible and already available, the cockpit crew of your aircraft will stay the same. This crew will be trained under our management as per regulatory requirements in-house and at manufacturer-approved training centres. In case new crews will be required, we offer to assist with sourcing from either our wide network or the open market.

Maintenance and CAMO

International aviation regulations require the aircraft to be operated in a technically controlled environment. Our CAMO (Continuous Airworthiness Management Organization) ensures this by

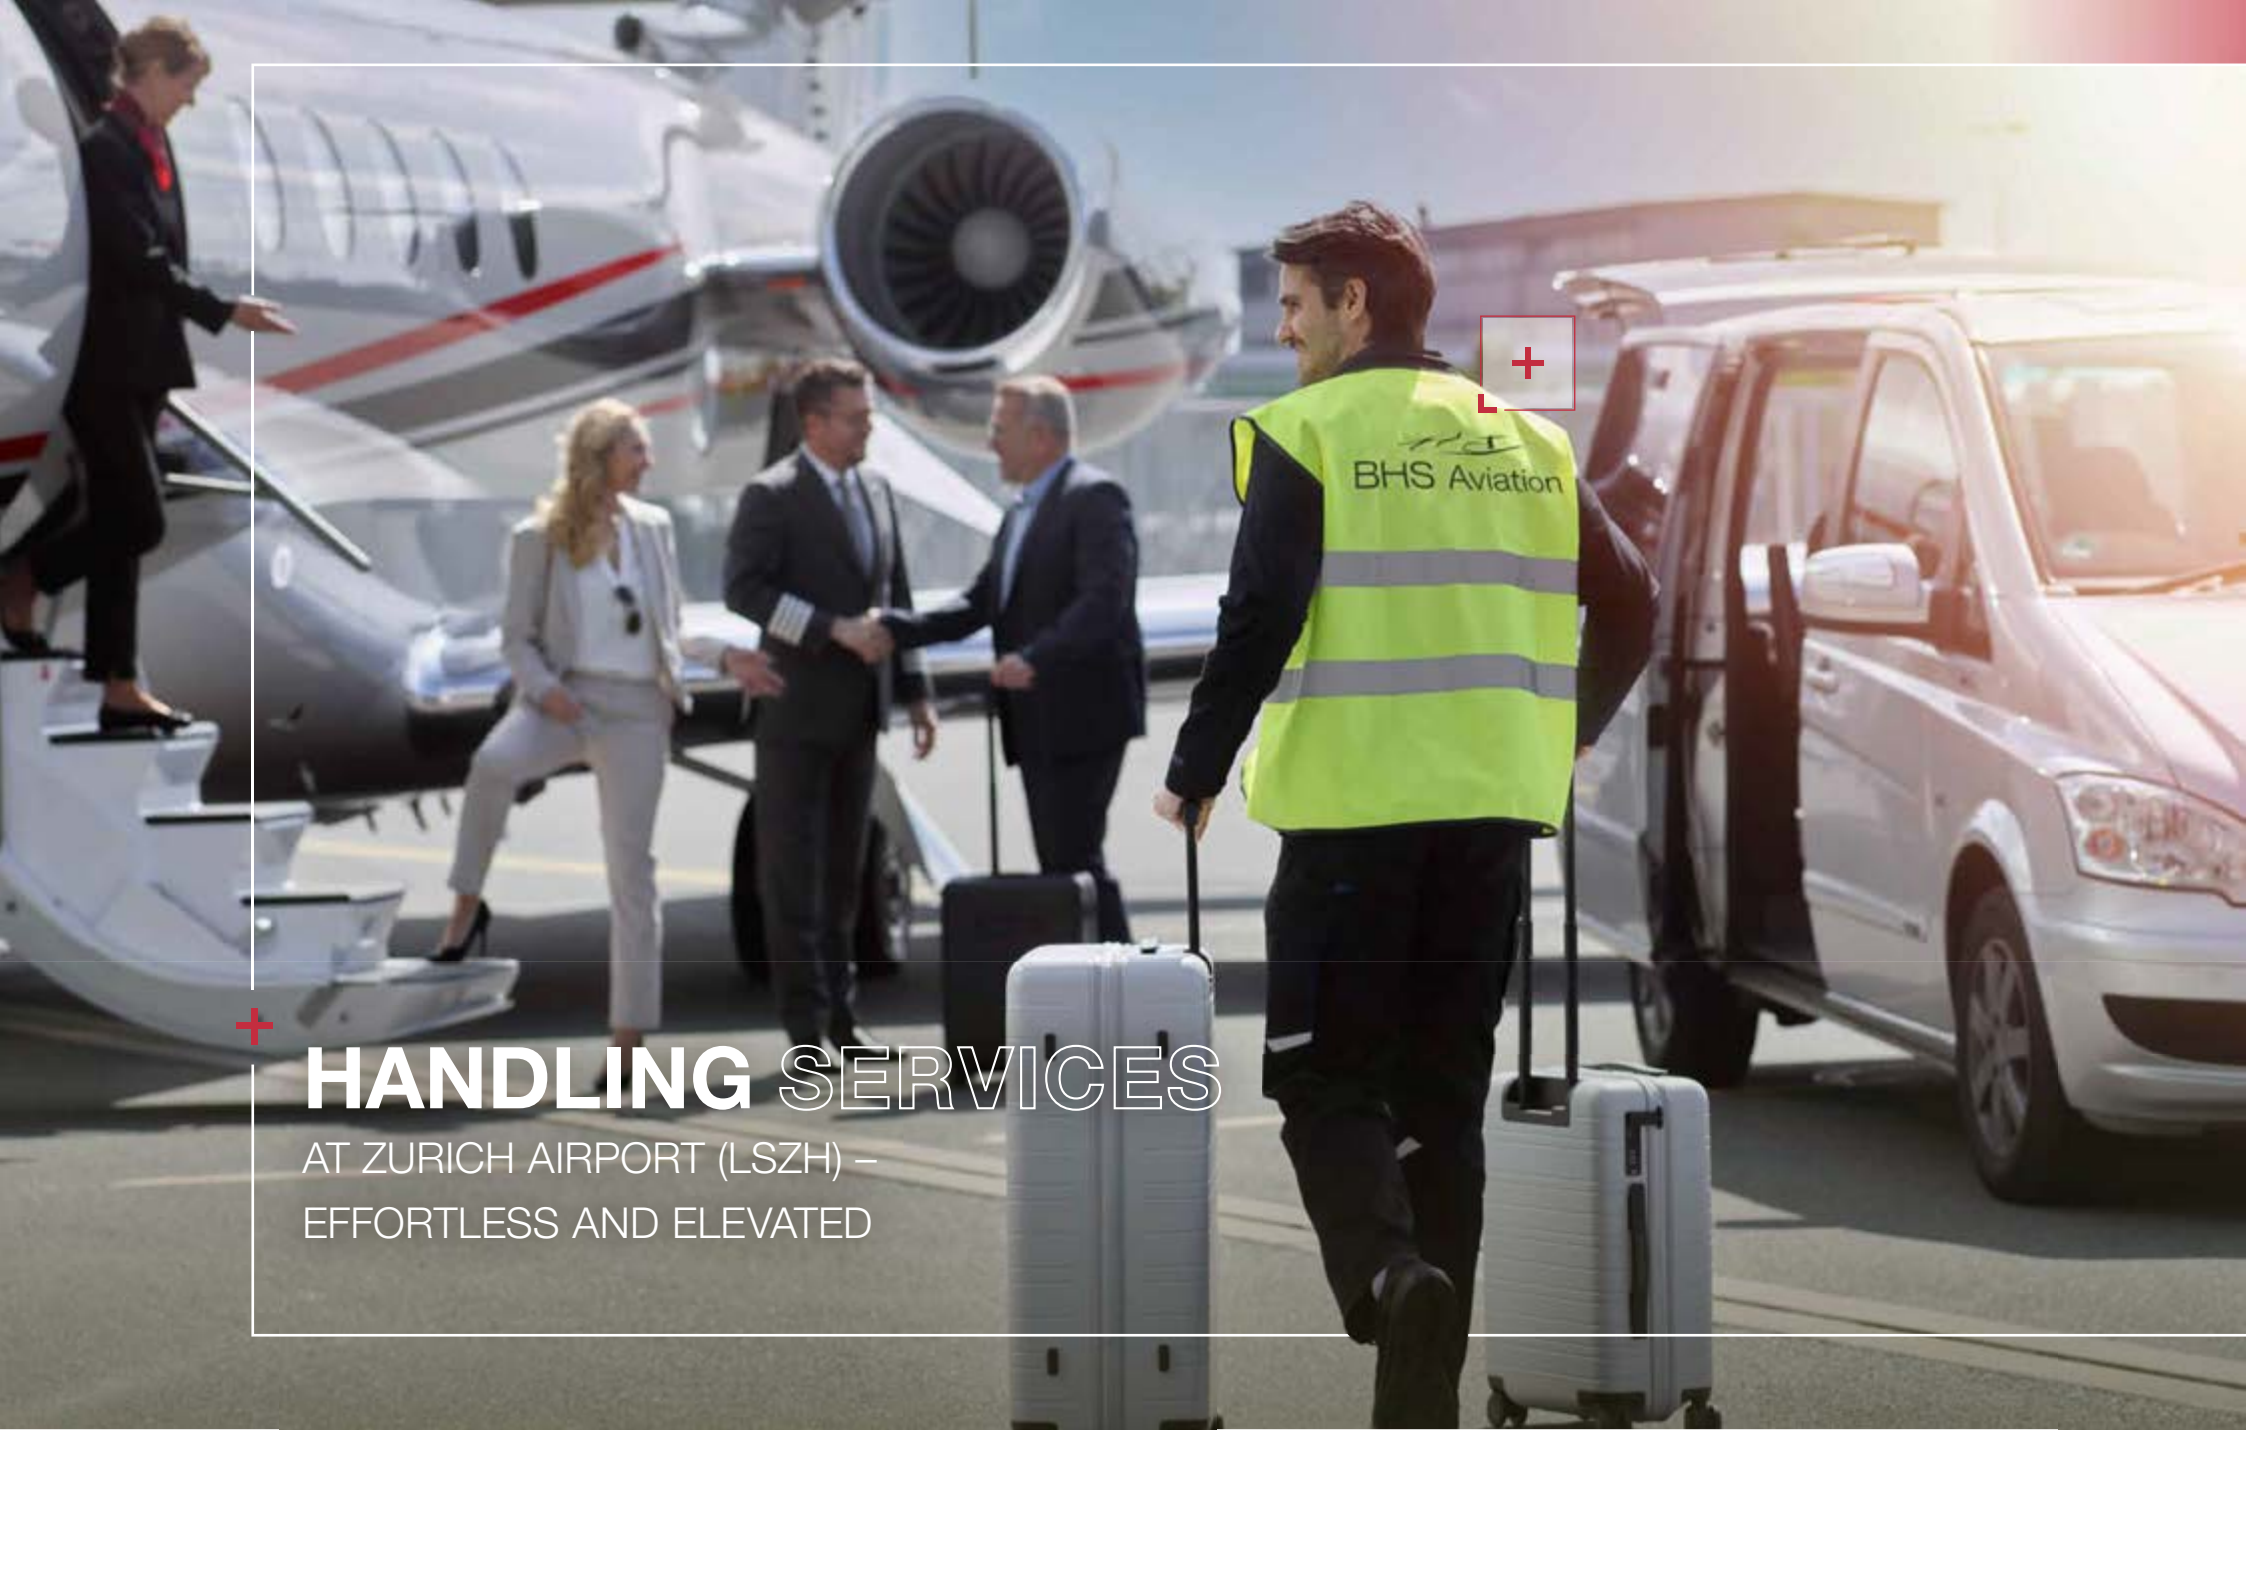

continuously and proactively tracking and planning the aircraft's technical status. Upcoming scheduled maintenance visits and inspections are carefully planned. Any and all maintenance works will always meet the manufacturer's and civil aviation authority's standards.

Insurance solutions

We offer expansive a wide insurance solutions tailored to your individual needs, protecting your aircraft and passengers.

Optional charter

Suppose you want to optimize your investment further. In that case, we also offer the possibility to commercialize your airplane or helicopter operation to generate additional income. Our AOC, Air Operator Certificate in Switzerland (for private jets) and in Germany (for helicopters) allows you to earn additional income without any effort on your part.

HANDLING SERVICES

AT ZURICH AIRPORT (LSZH) –
EFFORTLESS AND ELEVATED

BHS Aviation offers a first-class handling services at Zurich Airport (LSZH) to offer you and your passengers a seamless, convenient, and efficient travel experience.

Our dedicated team of professionals has the expertise to provide outstanding services that exceeds all your expectations.

Using our handling services at Zurich Airport, you can rest assured that all aspects of your stay at the airport will be handled

efficiently. Trust BHS Aviation to provide you with a hassle-free travel experience that saves you time and energy.

Experience the difference that an excellent handling service can make.

Our hub in Zurich offers a wide range of services tailored to your individual needs, including:

Handling and check-in

Our handling license at Zurich Airport enables us to provide fast and efficient handling so that you and your passengers can depart on time.

Passenger care

Our team offers your passengers the highest level of comfort and VIP-class care, from greeting them at the terminal to boarding. We ensure that all passengers' needs are considered throughout the process.

Baggage handling

We take care of safely and efficiently handling your baggage, so you don't have to worry about loss or damage.

Refueling

Our staff ensure fast and safe refueling of your aircraft to minimize delays and ensure flight readiness.

Ground handling services

Our team coordinates all ground handling services, from parking lot organization to assistance navigating the airport premises.

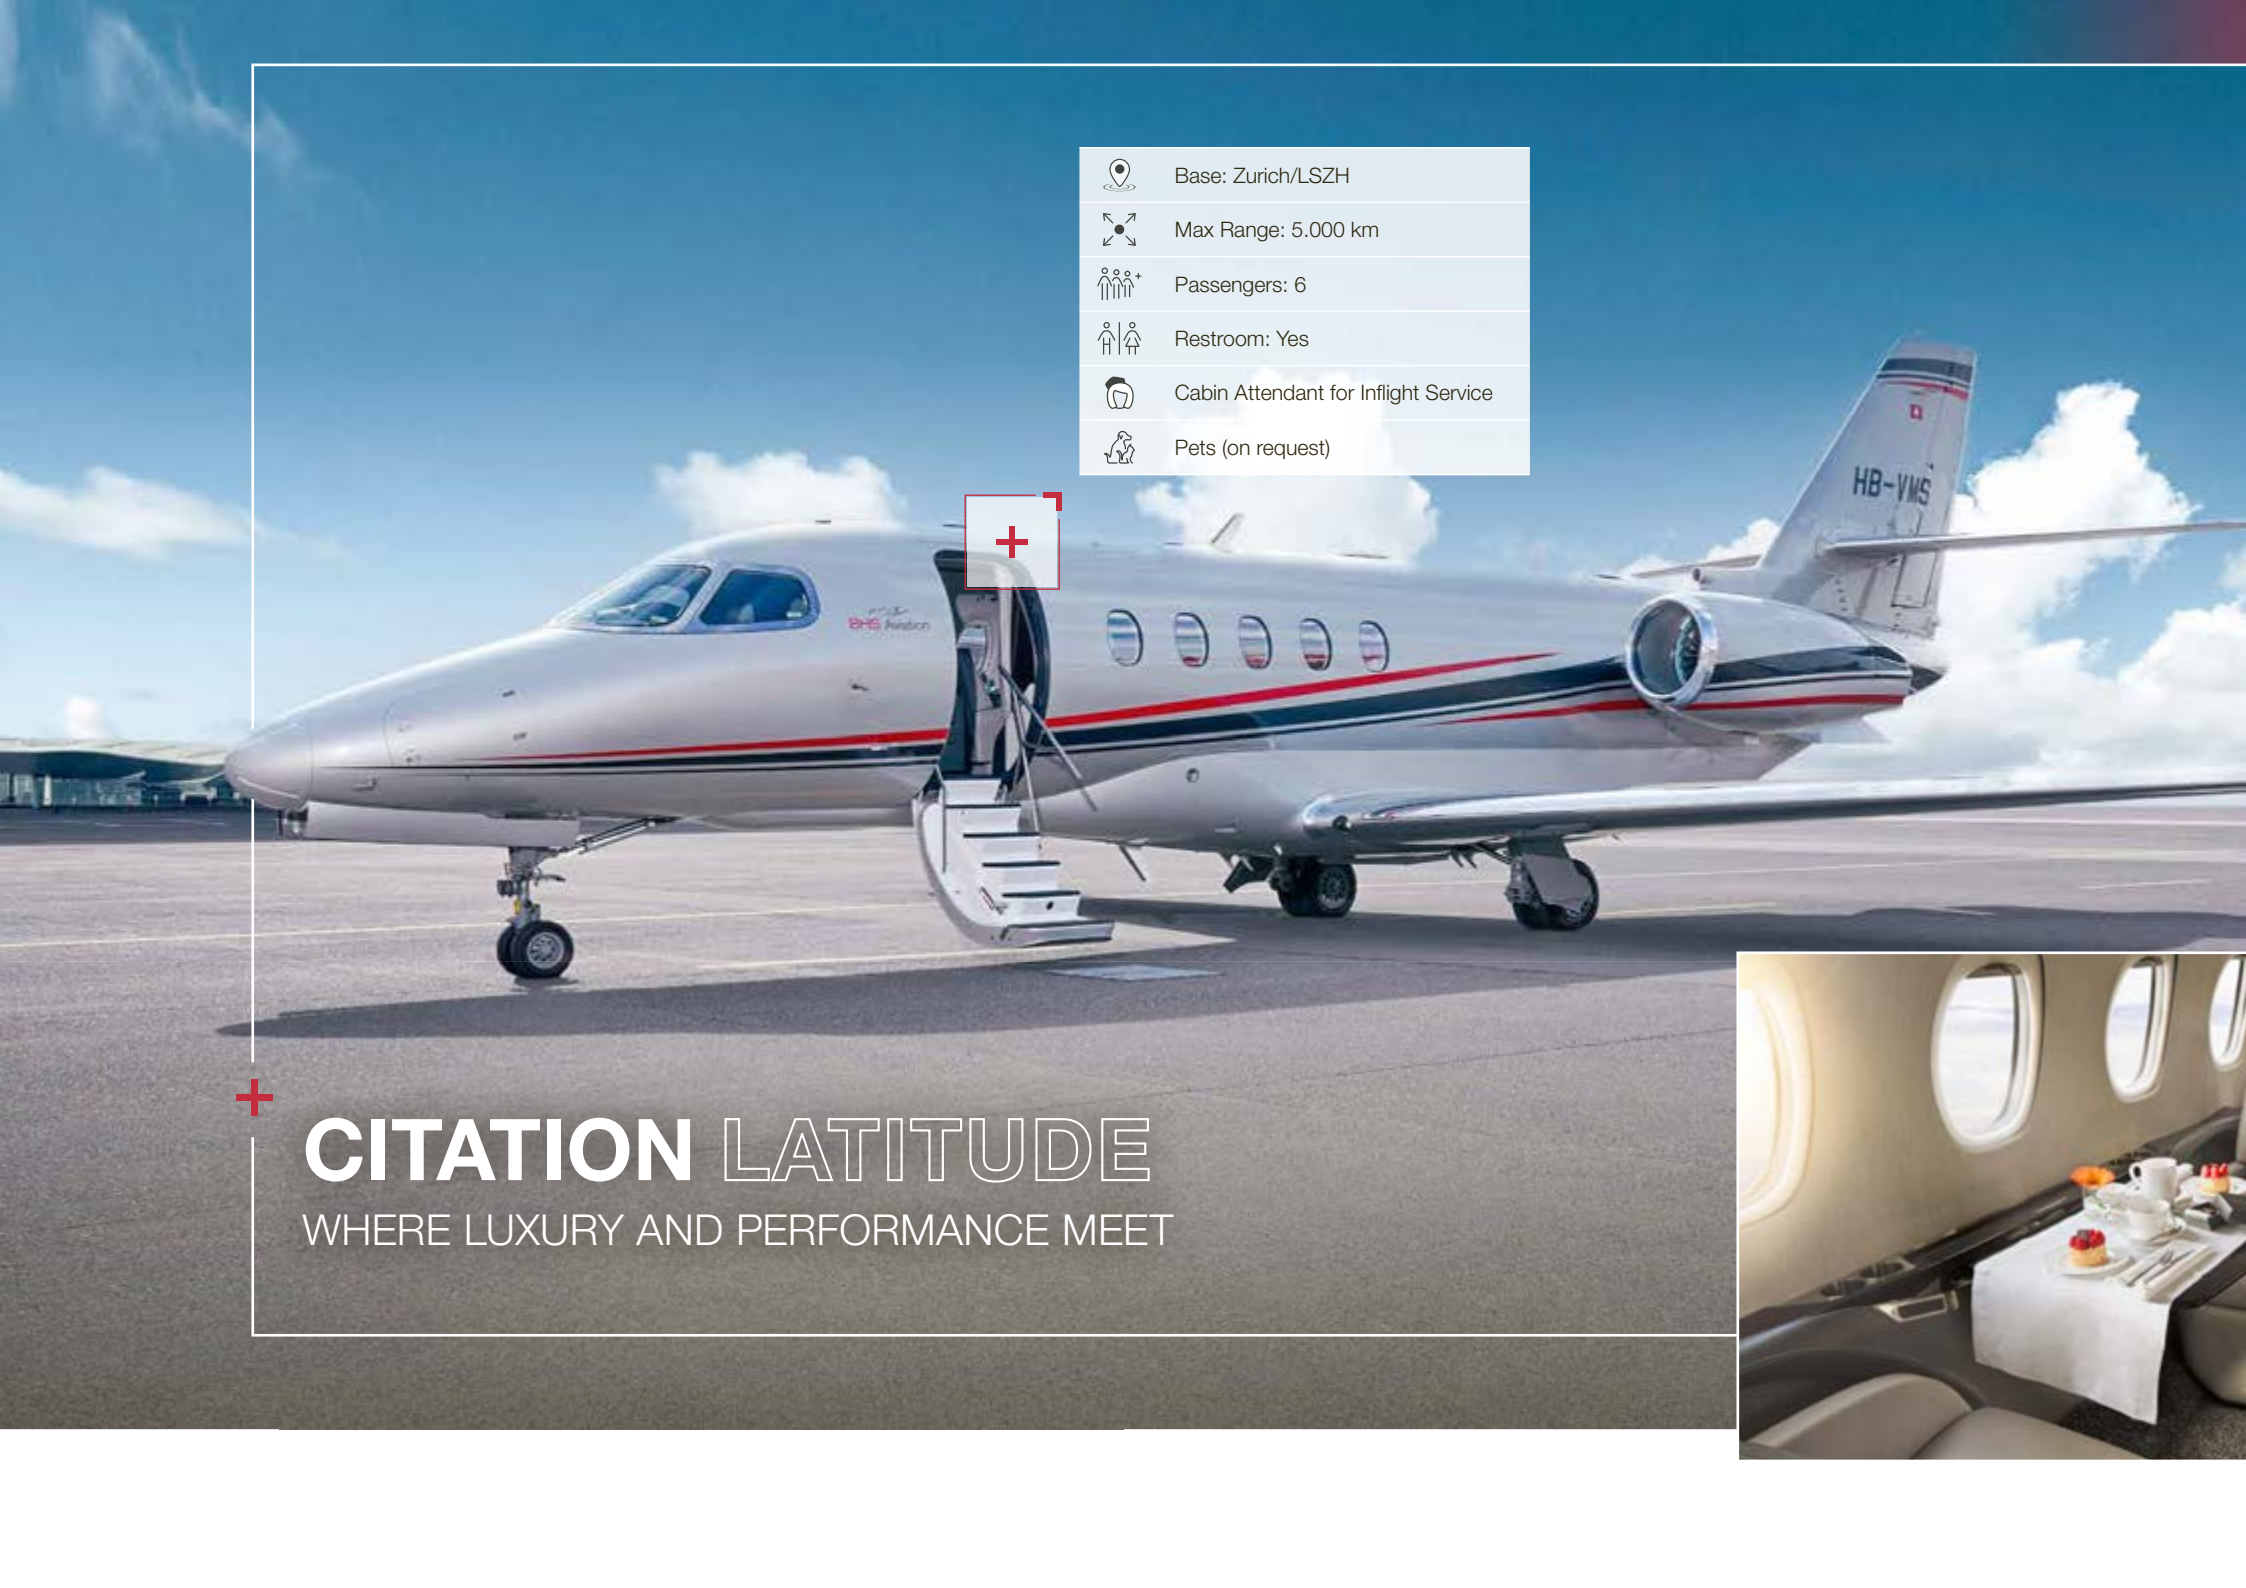

Hotel and limousine services

We take care of your stay and mobility – if that is congress or meeting hospitality, as well as individual travel experiences throughout Switzerland.

CITATION LATITUDE

WHERE LUXURY AND PERFORMANCE MEET

The Cessna Citation Latitude from Textron is the ultimate flying experience for the demanding traveler, combining excellent performance, long range, a quiet and comfortable cabin, and remarkable short takeoff and landing capabilities for easy access to remote airports.

Designed to meet the needs of discerning travelers, the Citation Latitude offers a variety of benefits that make it the ideal choice for both your business and leisure trips.

Spacious cabin

The Citation Latitude offers one of the most spacious cabins in its class, accommodating up to six passengers in a comfortable club seating arrangement. The cabin has a standing height of 6 feet (1.83 m), so you can move freely during the flight.

Comfort and convenience

Inside the Citation Latitude, a luxurious ambiance awaits you, designed with your comfort and needs in mind. The cabin features premium materials, plush leather seats, and the latest technology to create a relaxing and productive environment. An optional Wi-Fi internet connection rounds off the offer.

Range and performance

With an impressive range of up to 2,700 nautical miles (5,000 km) and a cruising speed of up to 446 knots (826 km/h), the Citation Latitude enables non-stop flights over longer distances and faster travel times compared to other aircraft in its class.

The Citation Latitude is the perfect choice for discerning travelers who value comfort, performance, and flexibility. Discover the impressive aircraft that will exceed your expectations and live a travel experience that is second to none.

Short take-off and landing capability

Designed to operate on shorter runways, the Citation Latitude gives you access to smaller airports that larger jets cannot. This gives you more flexibility in planning your itineraries and the ability to land closer to your final destination.

Avionics and Safety

The Citation Latitude features state-of-the-art avionics and safety systems, including the Garmin G5000 flight deck system that assists pilots with navigation and communications. The aircraft's systems are designed to meet the highest safety standards and ensure a safe flying experience.

SUSTAINABILITY AT BHS AVIATION

FULL SPEED AHEAD TO A GREENER FUTURE

Powered by
**SUSTAINABLE
AVIATION FUEL**

BHS

In a world where protecting our environment and reducing CO2 emissions is becoming increasingly important, we strive to be at the forefront and a pioneer in sustainability.

Implementing multiple measures to reduce our ecological footprint is how we pave the way for a greener future.

Our commitment to sustainability is not limited to our flight operations. We are also pushing to make our overall operations more environmentally friendly. This includes using energy-efficient technologies in our offices, reducing paper consumption and waste, and raising our employees' awareness of environmentally-conscious behavior.

At BHS Aviation, we are convinced that sustainability has to be an essential part of our corporate philosophy. With our initiatives and a continuous drive for improvement, we are doing our part to protect our planet and make business aviation a more sustainable industry.

SAF (Sustainable Aviation Fuel)

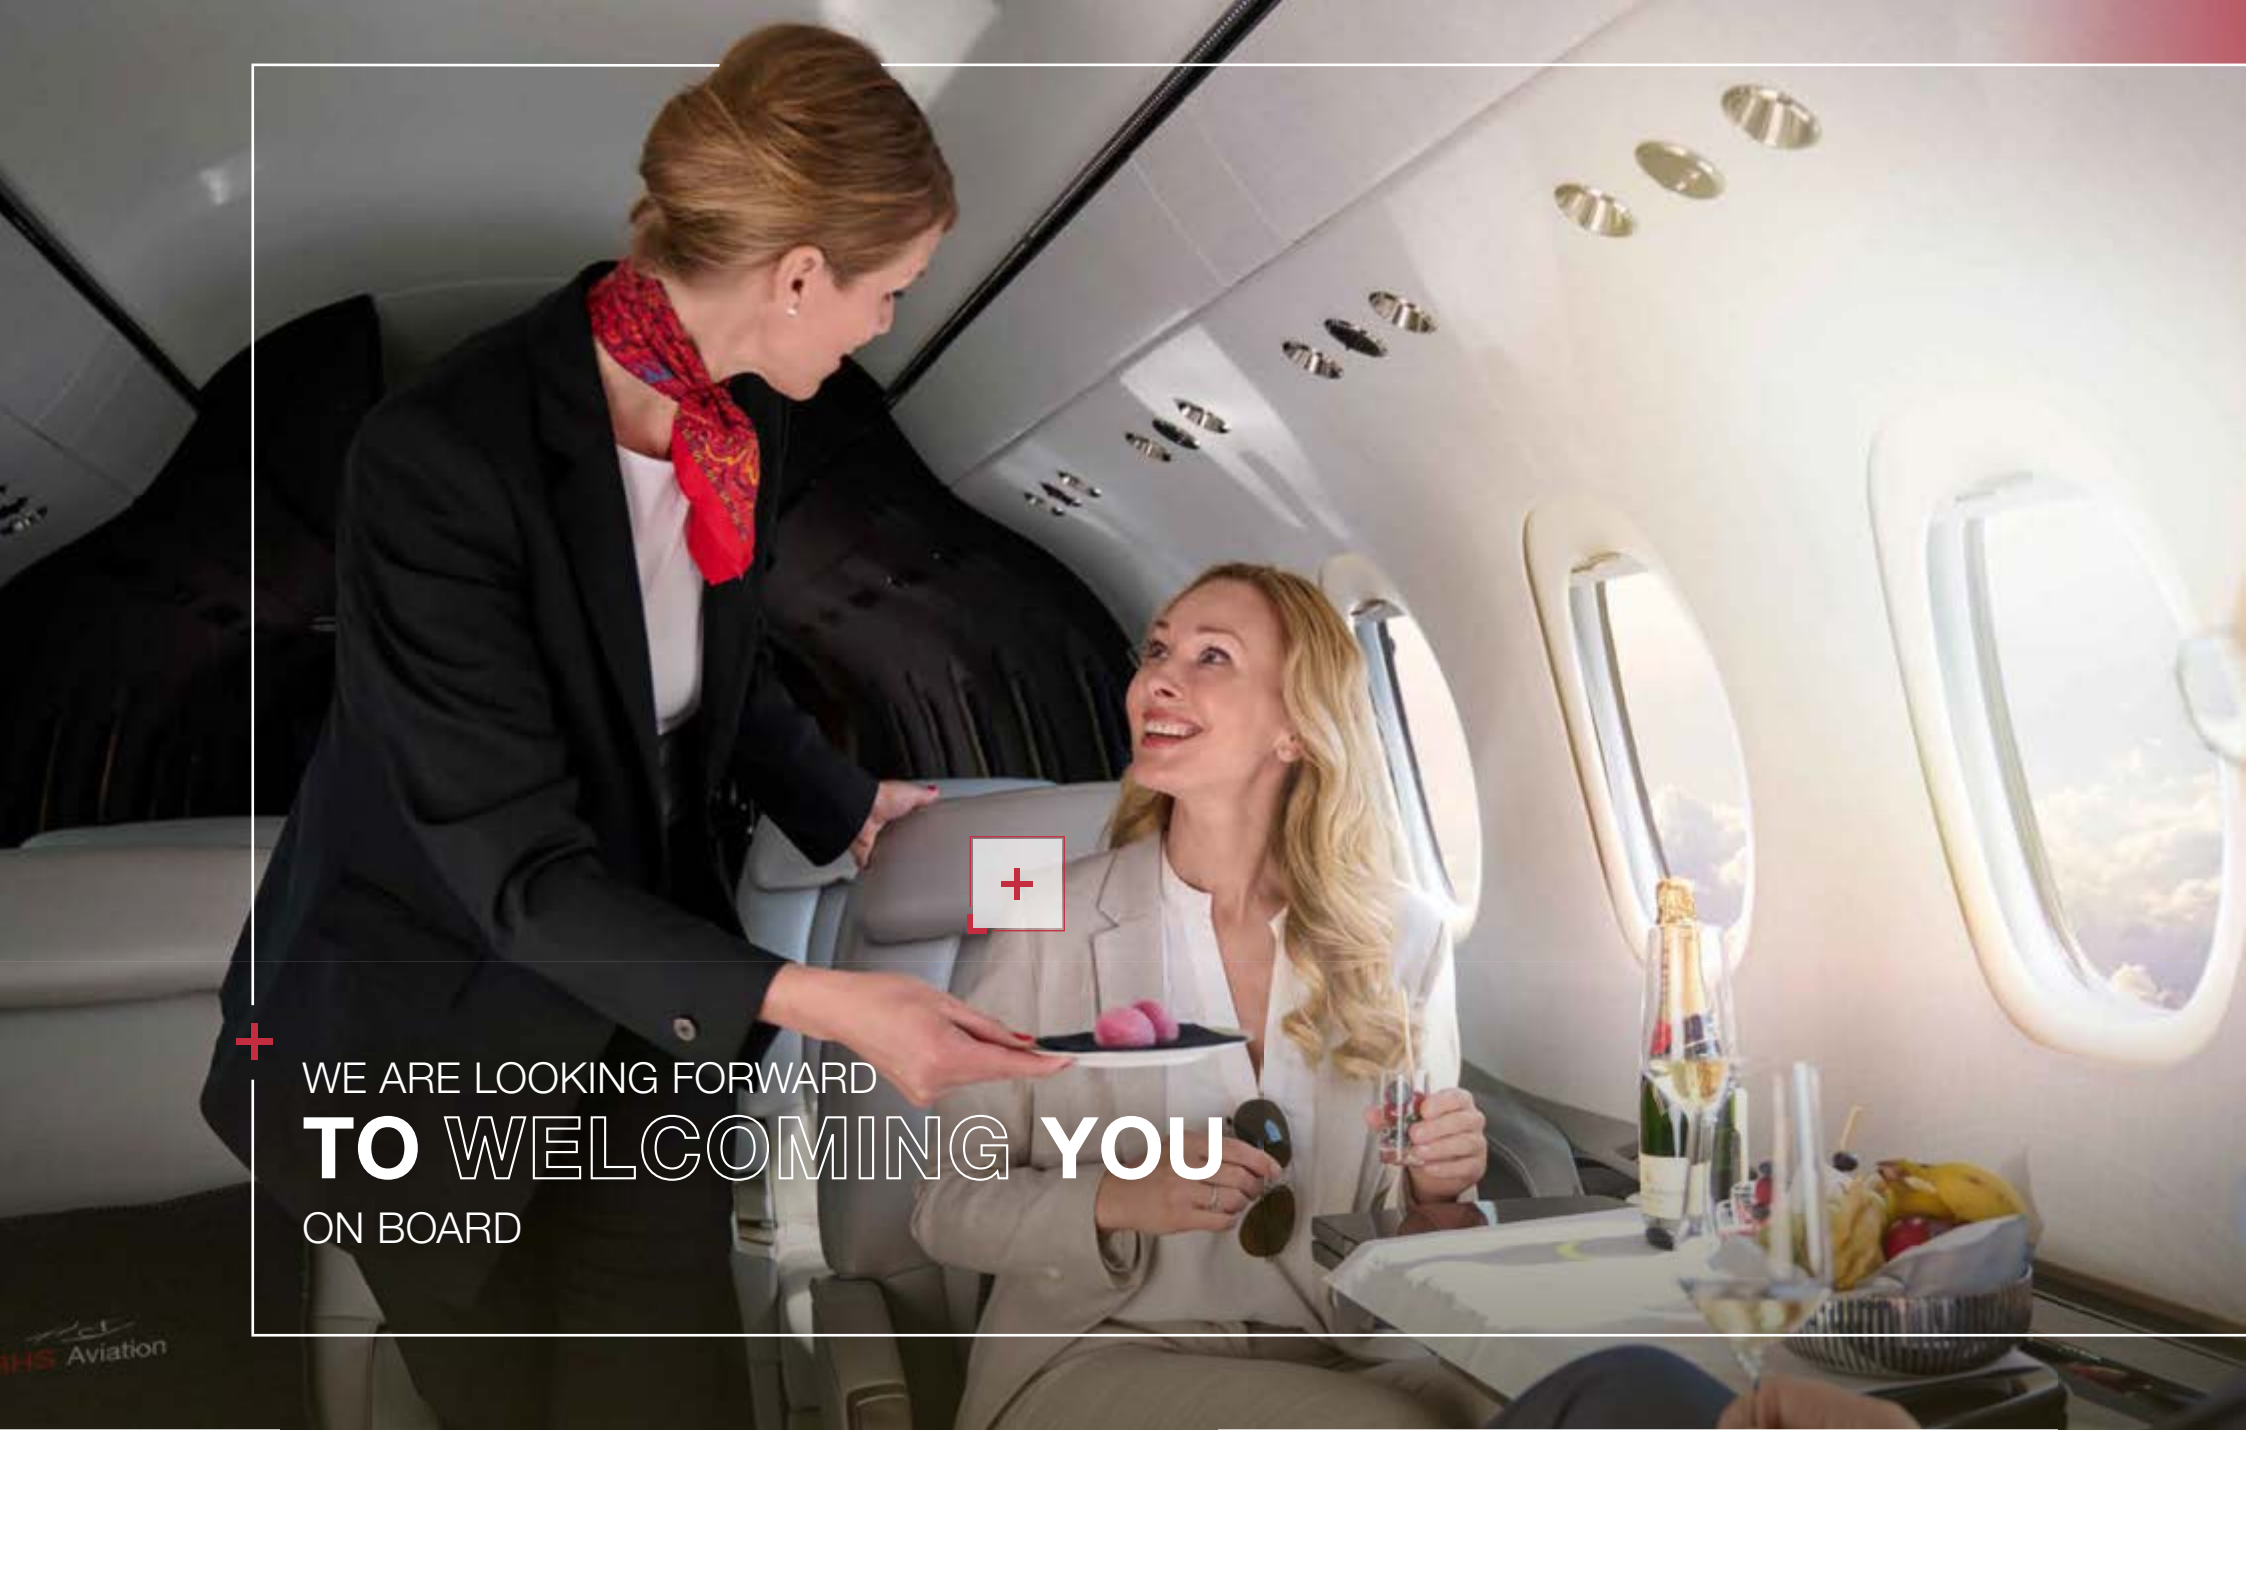

We use sustainable aviation fuel (SAF) as part of our sustainability initiative. It is made from renewable resources and helps to reduce CO2 emissions compared to traditional kerosene significantly. By using SAF, we are actively reducing the environmental impact of our flight operations.

Carbon offset

We recognize that air travel creates carbon emissions and are committed to offering our customers options to offset those. Our carbon offset program allows you to calculate the carbon footprint of your flights and invest in environmental projects that reduce carbon emissions and positively contribute to the environment.

Support for sustainability initiatives

BHS Aviation is proud to support various initiatives and projects to promote sustainability in the aviation industry. We are working with the next generation of fuel providers as part of this initiative.
