

Excellence in Business Aviation

The VIP Carrier in Switzerland

BHS Aviation AG is a company based in Zurich, specialized in private and commercial helicopter operations.

Out of Switzerland, we are operating and managing private helicopters on Super Yachts, fully authorized by foreign aircraft registers (e.g. San Marino, Isle of Man, etc.) We also commercially operate a fleet of VIP EC155, EC135, AW109SP and AW139 under Swiss and German AOCs for owners and for 3rd party charter, especially in Switzerland, Germany and the surrounding countries.

Our services include the professional hiring and training of crews, dispatch, operations and technical support for any type of helicopter, but also charter sales services for helicopters and aircraft. And on request, we also support you or your customers in the purchase and sale, specification and delivery support of either new or used helicopters.
